## Power

The NuSource Simpla electric floor scrubber will scrub as long as you want to. There are no batteries to check or any charge cycles to worry about, this scrubber will be ready when you are. Dry floors are a snap with a large vacuum motor and aluminum squeegee assembly. Without the weight of batteries this scrubber weighs only 150 lbs and is easily transported into vehicles or up stairs. Excellent maneuverability, great sight lines and a brush assisted drive system make this a popular choice for simple floor maintenance.

## Operator features

A unique spin on/spin off no touch pad driver assembly makes attaching the driver to the machine a snap. A large rear fill opening, gear shift control levers and a float shut off make the NuSource Simpla electric scrubber a great choice for any non battery situation.
