Specifications

Battery type:	12 volt, 140 AH, deep cycle
System:	24 volt total
Run time:	Up to 3 hours
Length:	43"
Width:	21"
Height:	38"
Weight:	158 lbs w/o batteries
Solution tank:	10 gallons
Recovery tank:	11 gallons
Drive:	Brush assist
Construction:	Rotationally molded polyethylene Powder coated steel
Warranty:	12 - 3 warranty
Includes:	2 12 volt 140 AH batteries Automatic battery charger Squeegee assembly 2 - 10" nylon brushes

Easy to use

The Abila 20" twin disc floor scrubber is versatile, user friendly and highly effective in congested areas. Its two 10" counter rotating brushes drive the machine in a straight line, no 'sideways' torque that is associated with most single disc 20" auto scrubbers. Solution splashing and broadcasting is kept to a minimum with counter rotating brushes that draw the soiled material towards the center. This material is quickly recovered by the strong vacuum system and weighted squeegee leaving a clean, safe and dry floor.

Applications

The Abila scrubber is very quiet, operating at just 65 db so hospitals, clinics and nursing facilities can perform maintenance operations 24 hours a day. This scrubber is designed for any small or medium sized facility that requires floor cleaning with a minimum amount of training or disruption of business. With 50 lbs of floating head pressure, superior water recovery and standard nylon scrub brushes grouted or ceramic floors are easily cleaned.
