System:	36 volt total
Run time:	Up to 4.5 hours
Length:	66.1"
Width:	32" - 35" w/o squeegee 28" - 31.4" w/o squeegee 26" - 29.5" w/o squeegee
Height:	53.5"
Weight:	716 lbs w/o batteries
Solution tank:	27 gallons
Recovery tank:	29 gallons
Drive:	Variable speed 0 - 4.5 mph
Construction:	Rotationally molded polyethylene Powder coated steel
Warranty:	12 - 3 Warranty
Includes:	6 - 6 volt 235 AH batteries Automatic battery charger 32" - 2 16" pad drivers 28" - 2 24" poly brushes 26" - 2 13" pad drivers

Compact

The NuSource Tripla riding floor scrubber is available with 3 different scrub head configurations, depending on your floor surface or space limitations. A clam shell body allows easy access to the 36 volt battery compartment and fill port opening. The 26" disc model will easily fit through a standard 36" doorway or entry way allowing access to confined or congested areas.

Drive System

The Tripla rear wheel drive scrubber has anti-skid wheels that provide improved weight distribution, balance, and greatly improved traction on ramps and wet floors. Front wheel steering allows the unit to turn within a 91" radius. The transaxle drive motor is sealed and totally maintenance free.

Safety

Operator training is easy with one button scrubbing, variable speed control, and electronic solution control. Standard features include a key switch, back up beeper, seat micro switch and a unique dynamic braking system. A low voltage shut-off eliminates potential damage to the batteries, motors or the electrical system.
