

Rider Sweeper

34" Battery

NU34RWAS

Specifications

| | |
|---------------|---|
| Battery type: | 12 volt, 140 AH deep cycle |
| System: | 24 volt total |
| Run time: | Up to 2.5 hours |
| Length: | 49.2" |
| Width: | 30.7" w/o side broom 34" w/ side broom |
| Height: | 47.2" |
| Weight: | 330 lbs w/o batteries |
| Drive: | Variable speed, 0 - 3.1 mph |
| Construction: | Rotationally molded polyethylene Powder coated steel |
| Warranty: | 12 - 3 warranty |
| Includes: | 2 - 12 volt 140 AH batteries Automatic battery charger |

Efficient

The NuSource Rider Sweeper is a great option for any sweeping application. It is extremely maneuverable in confined, congested spots and very productive in open areas. The counter rotating side broom with metal cover keeps the edges and corners clean while the main broom sweeps debris into the hopper. With a total sweeping width of 34", a standard 36" door frame is not a problem. The rider sweeper significantly reduces labor costs and delivers up to 40,000 square feet per hour productivity.

User Friendly

The front wheel drive sweeper is comfortable for almost any operator and all controls are easily accessible. The main broom sweeps heavier debris directly into the large (17 gallon capacity) waste hopper, while the impeller fan draws fine dust through a small particulate panel filter. An electronic filter shaker vibrates the pleated panel filter, making cleaning easier. The 24 volt battery pack allows up to 2.5 hours of run time resulting in 100,000 square feet cleaning capability per charge.

Fully adjustable

The main and side brooms are both adjustable for wear and different types of flooring. Simple and easy replacement of the brooms can be accomplished with no tools.
